> 智能纪要：仓库物料管理流程调研 2026年10月13日

说话人 1 00:07:11
他他他他他他他他他.然后接收的时候，我给你给你讲一下，你在接收，然后接收完之后，在10号楼的相应的库房，然后卸车区，对，卸车区接收，接收完之后进行入库，然后进行贴签，贴完签之后，ERP 然后进行质检，定完检之后，客户收到这个检验流程，然后他会填取样的单据，申请取样，我们看见这个单据库，来备料，备完料之后，我们要拿到的。

说话人 1 00:08:29
I think we can go directly to the receiving area for the DIT, and we will we will have a video video confirmation to。for for for the whole.

说话人 1 00:08:49
OK.so, we can follow that data from the label. so we can follow the information in the label in the WMS.

说话人 1 00:09:30
Yeah, I need to write the permission on the table and I need to check the permission on the table and do the data system and make sure that all the data keep the same.Okay, okay. Okay. Okay. Okay. And then in this is the.Do you have some time for each other?

说话人 1 00:10:30
message for all the operator. very helpful.OK.this is better than all for the group, so, right? all the same.

说话人 1 00:13:19

And after four, jump on one.The warehouse person will take the whole palette with the 4 ground solid into the warehouse.And within the warehouse, the warehouse person will check the information such as if it is from the forecast vendor.If there is any, my actual long number, if the COA is received, if there is any leakage of the ground and if there is any, any, hey, any.Test on the top.Yeah, so that information will be filled in the ERP system.And after that, the material has been arrived in the warehouse and our warehouse people will generally, the s can control a lot number and fill out the.Material Development label.On that label, there will be the lot number, the supplier lot number, and just some basic thing.And also the barcode has been fixed on that on that label.And we can scan that barcode to confirm all the information of this time.So here is just the receiving area.Yeah, and then we can go into the warehouse, see the building on that material. Okay, this is the warehouse for the GMV.

说话人 1 00:15:30
妈妈.

说话人 1 00:16:32
And here on each position, we also have the four hole.

说话人 1 00:17:34
咱.

说话人 1 00:18:15
And the daily, we have the daily.We have the speaker to clear space.What we should, we will, we will see, we will see the work and output the picture.Because during the livestream, there will be some.

说话人 1 00:20:30
We have the real investment to confirm which warehouse we will perform the market and base on the, the, the, the, the of the material. Okay. So in that.Imagine this investment, you know, you know, you know, you know, you know, you know, you know, you know, you know.The risk caused by the temperature person is low.So in this case, in such in start in this warehouse, we just use the use the temperature monitoring based on some data.

说话人 1 00:21:22
But I'll take that back to the state of the first investigation that we have, which is that the end of the Georgie.I just take that back to the state of the first investigation that we have, which.Is that

the end of the Georgie?I just take that back to the state of the first investigation that we have, which is that the end of the Georgie.I just take that back to the state of the first investigation that we have, which is that the end of the Georgie.I just take that back to the state of the first investigation that we have, which is that the end of the Georgie.I just take that back to the state of the first investigation that we have, which is that the end of the Georgie.I just take that back to the state of the first investigation that we have, which is that the end of the Georgie.

说话人 1 00:21:36
I just take that back to the state of the first investigation that we have, which is that the end of the Georgie.I just take that back to the state of the first investigation that we have, which is that the end of the Georgie.I just take that back to the state of the first investigation that we have, which is that the end of the Georgie.I just take that back to the state of the first investigation that we have, which is that the end of the Georgie.I just take that back to the state of the first investigation that we have, which is that the end of the Georgie.I just take that back to the state of the first investigation that we have, which is that the end of the Georgie.I just take that back to the state of the first investigation that we have, which is.

说话人 1 00:30:13
And L, 1,2, yeah, and 6,0,9,0,8,9,6.And here we can see the checklist. If the material information.Is consistent with the local information, and we give the material number is right.If there is any manufacture information, if there is any feeder information, if it is from.qualified supplier, if there is manufacturing log from the。Manufacturing spare if there is wonder C way if the package is integrated, if the open package is clean, if there is any test phone on top, perfect.

说话人 1 00:31:17
I'm looking forward to see you in the what operation that information.Our warehouse person put that information because this, yeah, yeah, this is the completed checklist. So it's the name associated on the dashboard.

说话人 1 00:31:36
谁来做的这个检测？咱有这个客户的预期记录吗？就是你有这个流程就能判断是谁提交。对你，你看一下是谁提交的？有， get the maybe the audit trail。ok， perfect。你应该是有那个类似谁阅读，谁提交的阅读。对，都有，都有。ok， 你找一下。

说话人 1 00:32:19
OK。好了吗？拍完了，落地了，好了。你找一下这个，我们继续看那个。

说话人 1 00:49:49
因为我们在现场参观嘛，所以正常就是接近，直接报给我，就是立即，对，那为啥？因为咱在现场参观，你让他抓紧，抓紧，就是因为这。

说话人 1 00:50:05
our consider the required the the drum transfer the immediate。the product, so, our level is just the short uh short terms of the customer.OK, I I just。I see. Yeah.

说话人 1 00:54:36
Warehouse for taping story.And after that, our QC guy will generate the QA of the long period.Yeah, and sometime after QC factory and then QA, think that for.So when the one thing is to respond to have 4,5,6 there, how are they labeled by to see sample that generate from the vehicle. And then when are they add up?

说话人 1 00:55:19
呃.

说话人 1 00:55:39
呃呃 Folder, 呃 Folder. Testing progress is 45 minutes, but Folder 3,4.

说话人 1 00:56:00
Receiving sample distribution for each testing for the regular robot room is the for the key robot room that as the a manual essay. That's all progress on the team.

说话人 1 00:56:41
Just as mention for key number such as, but the final testing, that's the label is from me.But for the regular number such as the government for.

说话人 1 00:57:02
呃呃呃.

说话人 1 00:57:33
And.

说话人 1 00:59:18
Well.

说话人 1 00:59:43
And.

说话人 1 00:59:59
And then C, C needs to C, C center.Here is the former center.And here you can see the sample from this drop or fact the drop of the C needs to.

说话人 1 01:01:13
And.

说话人 1 01:01:36
咱.

说话人 1 01:01:44
呃.

说话人 1 01:02:09
呃.

说话人 1 01:04:56
So, I think the best for the.

说话人 1 01:05:08
下一个就是怎么往车间去转。然后我们。然后通过扫码进行出库，对，出库之后会有一个一个项目的发料标签，去粘贴。

说话人 1 01:06:20
our project person will submit the material request to our warehouse, and then, warehouse receive material request, and then, our warehouse person will process the material request.

说话人 1 01:07:28
which is not easy, the material and the distribution by the end.and understand that problem, our warehouse has a very little challenge.the projecting material, that is the material for each product, and the status for this material, and the log.number is on that.so only the material made by this way can be distributed for production.

说话人 1 01:08:20
这是你们做的工作，对，对吧？然后呢，就分发的话，是我们会有物流人员，我们的物流会根据派单，刚才咱已经说到了，上完标签了，物流人员根据物流单去接单，过来，他再过来核对信息，一个一个发到车间，车间的一些后面的人解决核对信息。

说话人 1 01:08:46
and at the same time at the same time our production person also submit。

说话人 1 01:09:04
and after that, our person will see what material will be.

说话人 1 01:09:52
下一步就是方便了你要考虑这个接触器那必须到家了这是一个接触位到家了.

说话人 1 01:12:23
And after 2,000%, we will have the external surface is clean, no type, and the 5 minutes.

说话人 1 01:13:27
The name of the data and the.Okay, after simple viewing of the outer, the surface of the, of cases, they will directly move the material into that package.

说话人 1 01:14:19
这两个人是哪来的？那两个人，他就是他只在户外，他不进去，是吧？里边有抓人机，把物料送进去，里边。

说话人 1 01:14:51
So basically, those two guys are only working like on this platform.They not go inside and they just sending the material in and in here and have to like people to collect the material and they

only stay in here. So it's not allowed to actually walk.Inside and the personal inside, how do I get this platform?Like you need to walk more things. So what kind of things?

说话人 1 01:16:40
就是这两个其实是从外面过来，是吧？也是在这个地方直播。对，他应该是从外面过来的。然后就是这个。回去吧。

说话人 1 01:22:24
到了关注控制.
