Sampling Location Diagram for Peptide Solid Phase Synthesizer
多肽固相合成仪取样点示意图

cutline
图例

1 sampling location No.取样点序号

● sampling location取样点

Serial number 序号	Location 位置
1	After string washing the activation tank, an appropriate amount of eluent in the middle section (see AC-053 for details) is received from the upper expansion valve port of the synthesis kettle by running the transfer program and sent for testing 串洗激活罐之后通过运行转移程序从合成釜的上展阀口接取适量（详见AC-053）中间段淋洗液送检测
